## Leadership

“We created Technicorum to help traditional businesses transition to the blockchain and to assist new blockchain-based businesses to thrive. We aim to be a bridge between these two worlds, removing the barriers that have kept them separated for so long.”

**Malcolm Tan, Chief Strategic Advisor**

## Advisory & Project Management

- We grasp the latest technologies and trends in the blockchain and have been involved in various prominent blockchain initiatives. Our team is dedicated to delivering the best experience to our clients, and we do so by staying up to date with the latest innovations in the blockchain space.
- We offer one-stop-shop services from idea to implementation. We will guide you through every step of the process, from strategy to implementation, to make sure your blockchain project is successful. With our team of blockchain experts, you can be sure that your project will be handled with the utmost care.

# Blockchain Technology

At the outset of an ICO/IEO/IDO/IGO/NFT etc venture, we offer direction and step-by-step implementation guides. We assist with Tokenomics structure design and allocation planning, as well as KYC guidance for regulated offerings, who finish the token investment process. Once the job is finished, we help list tokens on major worldwide exchanges.

We have prior experience with successful tokenised projects in building your smart contract and token, as well as verifying that your blockchain network is functioning properly. Furthermore, we provide token fund composition and user distribution services.

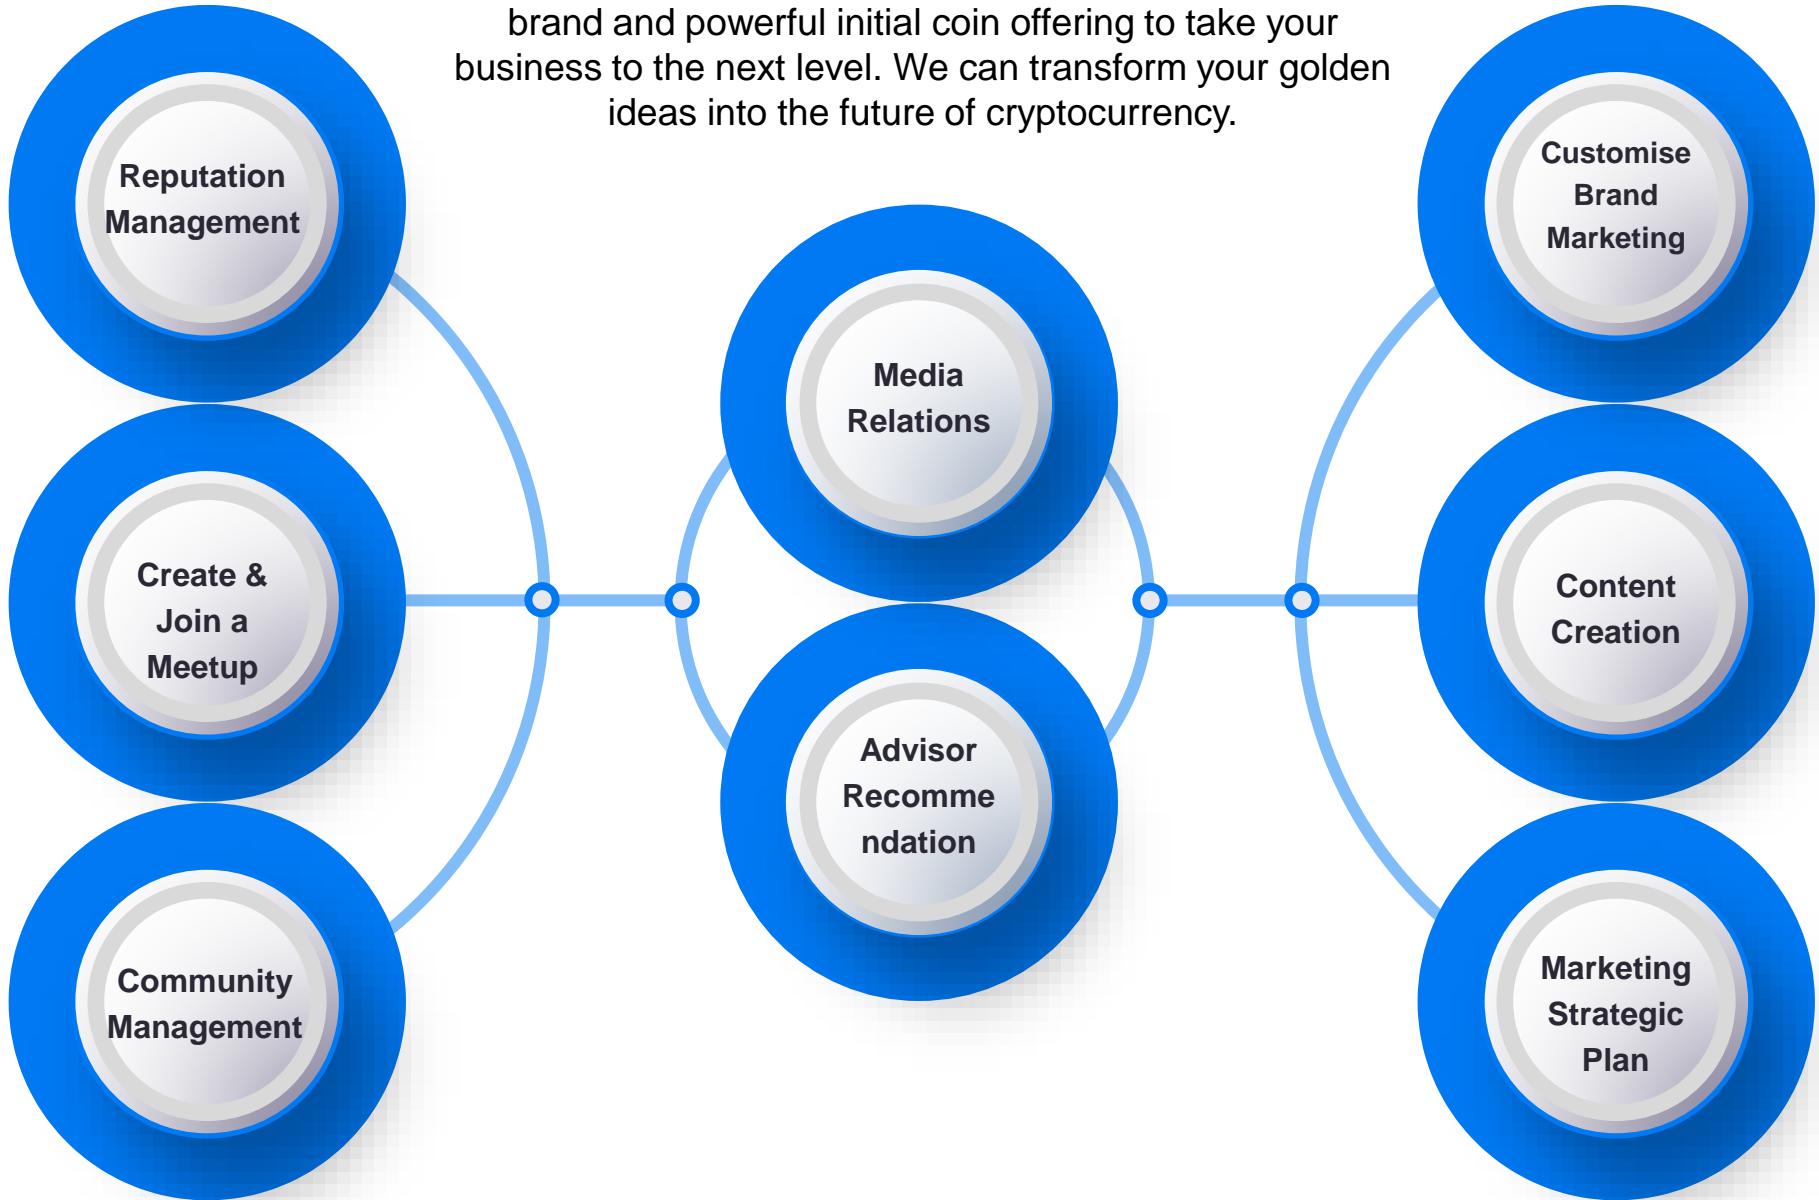

# INVESTOR RELATIONS

- We use knowledge, experience, technical abilities, and agile principles to capture use-case ideas, design markets, develop and implement them.
- We develop strategically efficient step-by-step fundraising stages.
- We follow a strict set of portfolio guidelines when managing funds.

# Marketing

Let us show you how we can help you build a strong brand and powerful initial coin offering to take your business to the next level. We can transform your golden ideas into the future of cryptocurrency.
